### ABOUT

---

Innovative Front-End Developer with Two years of working experience in building and maintaining responsive websites, proficient in HTML, CSS, JavaScript, Reactjs, Tailwind and Wordpress with expertise in modern libraries and frameworks. I am aiming to take on new challenges and utilize my coding and debugging skills to develop new features and enhance the overall user experience.

### WORK EXPERIENCE

---

**PerfectionGeeks Technologies** Gurgaon  
(Front-End Developer) (Present)

- Integrated **third-party APIs** (like payment gateways, location APIs, or form submissions) to add real-world functionality to web applications.
- Used **Postman** to test, debug, and document REST APIs, ensuring smooth integration with the frontend and saving development time.
- Handled **authentication headers** (like Bearer tokens, API keys) in API requests for secure data transactions between client and server
- Built **dynamic forms and dashboards** in React by fetching and rendering real-time data from backend APIs.

**Wayfarer E-Commerce Private Limited** Noida  
(Front-End Developer) (April 2024 - Feb 2025)

- Experienced in building responsive and interactive web applications using HTML, CSS, JavaScript, React, and WordPress, with a strong focus on performance, usability, and user experience (UX).
- I built and managed front-end web applications that made pages load 20% faster and helped attract more visitors. I did this by using new tools like React and making sure the website was easy to use and accessible for everyone.

- Implemented React Router to handle navigation between views in a single-page application (SPA), ensuring a smooth, reload-free user experience.

## Digital Rai

(Front-End Developer)

NewDelhi

(June 2023 - Mar 2024.)

- In my role at Digital Rai, I develop and maintain responsive web pages using HTML, CSS, and JavaScript, Wordpress ensuring they're responsive and content-rich.
- Optimized website speed and performance through code refinement and image compression while collaborating with senior developers to implement new features
- Continuously learning to stay updated with the latest web technologies and trends to improve development skills.
- Deployed websites on Netlify.
- As a front-end developer, I update and maintain website content to keep it up-to-date and consistent with the brand.

## Bizzonline (Internship)

Gurugram

(Intern Front-End Developer)

(Aug 2022 -Feb 2023)

- Deployed websites on Netlify.
- Managed and updated website content using WordPress optimizing page and enhancing user experience.
- My responsibilities included deploying websites live using GitHub, as well as updating and making changes to ensure their continuous improvement.
- As a front-end developer, I update and maintain website content to keep it up-to-date and consistent with the brand.

## EDUCATION

---

- **Coding Block Institute: MERN Stack** (August 2023 - May 2024.)
- **Bachelor of Computer Application (BCA)** IGNOU New Delhi (2020-2023 Graduated)
- 12th CGBSE Board (2019- 2020) MGM Hr. Sec. School.
- 10th CGBSE Board (2017- 2018) MGM Hr. Sec. School
